## MAYOR'S PROCLAMATION

### City of Tombstone To Duly Observe the Day

To the Residents of the City of Tombstone:

Pursuant to the proclamations of the President of the United States and Governor of the Territory of Arizona, recommending Thursday, Sept. 19, 1901, is a day of national mourning and prayer for our martyred president Wm. McKinley, who was ruthlessly slain by the hand of an assassin, I, A. H. Emanuel, Mayor of the City of Tombstone, do most earnestly request that the citizens of the City of Tombstone do observe the day in accordance with the full spirit and earnestness of the proclamations issued, and that a general suspension of all private and public business follow during the day as a mark of respect and deep bereavement of our people.

A. H. EMANUEL,  
Sept. 18, 1901. Mayor.

Tomorrow is a day of mourning for America and all true citizens will bow in sorrow.

President Roosevelt has restored public confidence by declaring that he will carry out the policies inaugurated by President McKinley.

In spite of all the efforts of the Buffalo people to make their show equal to that of Chicago, unkind folks have called it the Tin-Pan American Exposition.

As the Post says, Arizona takes delight in thinking what the people of Arizona would do had O'Leary attempted to assassinate the president in this territory.

President McKinley was shot just twenty years to a day after the famous "yellow day" of 1881, when President Garfield, the victim of the assassin Guitau, was removed to Long Branch in a last hope that he might recover.

The last words of President McKinley, pronounced before his lips became sealed to death was a blessing, showing the highest state of resignation in uttering them, when he said: "God's Will be Done and Not Ours. Nearer My God to Thee." Those words have calmed the strongest men and caused tears by the million to be shed in sincerity, in realization that such utterances came from the head of the nation, and that a good true man had departed, worthy of the confidence and honors that his people had bestowed upon him.

The assassination of President McKinley, happening at a time of political calm and so clearly traceable to the anarchist infatuation of a shiftless, unknown creature, it allowed no space for partisan feeling. Instead the great underlying loyalty and honesty of the American heart came uppermost at once and from every quarter and every shade of true citizenship have come like measures of sorrow, affection and indignation as the incidents of the dastardly deed evoked them.

The number of organized workmen in the United States is estimated at 2,900,000, divided as follows: In American Federation of Labor, 1,500,000; Knights of Labor, 50,000; Western Federation of Labor, 50,000; railroad organizations, 150,000; Independent trade unions, 250,000.

Bert Maersman, captain of the Arizona Rangers, has returned from Phoenix, where he has been on business connected with that company. He states that all of the members of the company have been picked out but not all have yet been sworn in. Several of those who have been enlisted are now out in the field at work, and they may be heard from at any time. It will be a very fine building and will provide ample accommodation for the immense amount of mail passing through the office. It will not be finished a moment too soon for the public or for the suffering post office officials.

The Morenci club got us again and this time it was Morenci 26 and Bisbee 8. It is said that our team was outclassed. The older ones in the game doing pretty much as they pleased. However, it was spirited game and each side did their best to win.

## A BIG SALE

### Transfer of a Valuable Group for Over a Million.

The Yuma Sentinel says the report has been current that the Hedger gold mines have been sold for \$1,250,000. These mines are located about 15 miles west of Yuma and have yielded immense wealth in the yellow metal, a great deal of which, however, has been expended in high-priced litigation. The property has been in the hands of a receiver for a long time. Two stamp mills are in operation at Hedger, one a hundred and the other a sixty stamp mill. There is a large cyanide plant there and several hundred men are employed.

## ARIZONA PROCLAMATION

### Gov. Murphy's Proclamation on Funeral Observance

To the people of Arizona:

Our beloved president is dead at the hands of an assassin. An awful, immeasurable calamity has befallen our country and the world. Our nation is stunned. All civilization is grief stricken. Words cannot give consolation, nor can mourning relieve the great sorrow which has come to us. The awful consequences cannot now be known nor understood. The loss is irreparable.

It is proper, however, that the people express their grief and affection in this time of profound gloom.

I, therefore, request that all business, public and private, be suspended on the day of the funeral, that mourning services be conducted in all of our churches tomorrow, September 15th, and also on the day of the burial; that the flags be kept at half-mast upon all school houses and public buildings for thirty days, and that all public officers and institutions be properly draped.

And I ask that Sunday, September 22, 1901, be observed a special day of prayer for the great and noble friend of humanity who has been taken from us; to his successor as president; for his successor as president; for the restriction and punishment of crime and for the safety and welfare of the republic.

In testimony whereof, I have this 14th day of September, 1901, at Phoenix, the capital, set my hand, and caused the great seal of the territory to be affixed.

(Seal) NO MURPHY.

Governor of Arizona.

ISAAC T. STODDARD

Secretary of the Territory of Arizona

The home grown, hand spanked, barefooted, hard-fisted, country boy makes the much better fighter in the battle of life than does the pampered high collared youth of our towns and villages, whose clothes have already been dusted with a whisk broom instead of a shingle.

## Still More Countertailing.

The Secret Service has unearthed another band of counterfeiters and secured a large quantity of bogus bills, which are so cleverly executed that the average person would never suspect them of being spurious. Things of great value are always selected by counterfeiters for imitation, notably the celebrated Hostetter's Stomach Bitters, which has many imitators but no equals for indigestion, dyspepsia, constipation, nervousness and general debility. The Bitters sets things right in the stomach, and when the stomach is in good order it makes good blood and plenty of it. In this manner the Bitters get at the seat of strength and vitality, and restore vigor to the weak and debilitated. Beware of counterfeiters when buying.

Why people should persist in getting mixed as to the "near" and "off" horse in a double team is inconceivable, when it is so easy to remember that the "near" horse is the one that is farthest away from the driver.

John H. Bowen and Harriet M. Elliston were joined in wedlock last evening by Probate Judge Hostwick. The happy couple are Bisbee residents and left this morning for their home taking with them the hearty congratulations and best wishes of their friends.

Mayor Emanuel arrived at the age of 70 years on Saturday and received the congratulations of his many friends. The mayor has thus reached the allotted span of life in attaining three score and ten, but being in the enjoyment of good health bids fair to add another score of twenty to life's calendar and begin the journey of rounding out another milestone in the possession of vigorous health, native force and ability, while official honors, position and influence rest lightly upon his shoulders and are maintained with modest dignity. The Prospector joins in wishing him many happy returns of the day.

C. W. Nicklin, who for the past five years has conducted a printers' supply house in Los Angeles, enjoying a liberal patronage in Arizona, has sold out to a company called "The Southwest Printers' Supply," of which Mr. Mulford Winsor is secretary. Mr. Winsor was for some time engaged in the newspaper business in Yuma and was a clerk in the last legislature. His many friends will be pleased to learn of his association with the new firm, which will doubtless inherit the prosperity Mr. Nicklin enjoyed.

## A WORTHY SUCCESSOR.

"SOMETHING NEW UNDER THE SUN."

All Doctors have tried to cure CATARRH by the use of the powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membrane causing them to crack open and bleed. While pastes and ointments did not reach the diseased part, and only relieved the patient who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a treatment which when faithfully used, and only relieves at once, but permanently cures CATARRH by removing the cause, stopping the discharges, and curing the inflammation. It is the only remedy known to science that actually reaches the affected parts.
